NutriSoil - Why It Works? The Science Behind

In 2012, NutriSoil underwent significant trials to answer the question - **Why does NutriSoil work?**

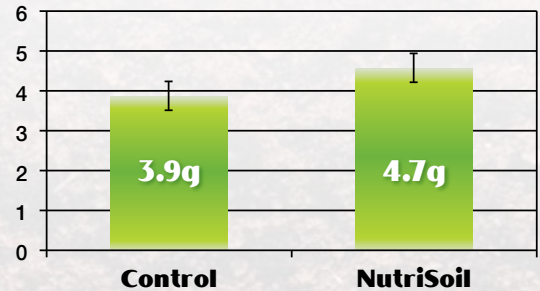

A nearby untreated pasture site was selected to conduct soil core trials. These were sent to Creation Innovation Agriculture & Forestry (CIAAF) Microbiology Laboratories Australia in Adelaide. Dr Ashley Martin and business partner Dr Maria Manjarez helped to design the project: **“Microbiology of NutriSoil LS and its Effect on a Soil Microbial Community”**.

Preparing 6 core samples under DPI supervision.
3 x controls and 3 NutriSoil treated repetitions.

CIAAF results are in and we can announce some preliminary results.

Dry Weight

What does this mean???

**20% increase in Dry Matter
after 1 application of NutriSoil**

Other results showed NutriSoil had positive impacts on the Microbial Community and Microbial Diversity.

The report is still being finalised.

Dr Ash Martin, (CIAAF) at SARDI lab.
(South Australian Research Development Institute).

Price Rise

It's been six years since the last price rise. While all other costs have continually increased, we have endeavoured to retain the current price for as long as possible. The new schedule will begin after our Open Day on the 25th July 2013. All orders paid before and including this date will be kept at the current price.

New rates effective 1st August 2013:

25L @ \$7.20/L (8% inc) = \$180
200L @ \$5.75/L (<8% inc) = \$1150
1000L @ \$4.95/L (2% inc) = \$4950

(decrease by 10c/L per additional 1000L)

All existing freight subsidies still apply

Helpful Hint!

1 DELIVERY ADDRESS = BETTER BULK PRICE

Share the order with friends/ neighbours.

Pricelist is downloadable from website www.nutrisoil.com.au or contact NutriSoil office (02) 6020 9676.
